DRAFTING OF LEGISLATIONS

During the year under report the Centre has been assigned the task of revising number of land, revenue and other laws of the State of Telangana and the State of Andhra Pradesh. The details of the legislations reviewed by NALSAR for the State of Telangana and the State of Andhra Pradesh are as under:

A) Revision of Land Laws for the State of Telangana

In pursuance of NALSAR's proposal to assist the Telangana Government in reviewing and revising the Land and Revenue Laws in the state of Telangana, the government responded positively by issuing orders vide G.O. RT. No. 470 dated October 1, 2015 for review of land laws in the State of Telangana. The NALSAR and Landesa (RDI) team thoroughly reviewed and revised nearly 112 legislations relating to land and revenue sector. The said task has been done within a short span of six months in phased manner through consultations with various advocates, serving and retired IAS and Revenue Officers, academicians, NGOs, women's forums, tribal leaders and political representatives of the concerned state. The final report was submitted to the state government in May 2016.

For the purpose of understanding the contemporary realities and challenges involved in this task, workshops for specific categories of people were undertaken as per following details:

One-day Workshop on Land Laws in Telangana- Women's Perspective

On January 30, 2016, the first Consultative Workshop was held in NALSAR to understand the challenges in securing access to land rights from the perspectives of women. The workshop saw participation from different NGOs, professors, women forum representatives, senior journalists, revenue officials and Centre for Good Governance representatives. Participants unanimously agreed that one of the major reasons for failure in securing access to land rights was lack of awareness about the laws governing land administration and vast illiteracy prevalent amongst women especially those belonging to the backward classes. The suggestions generated from the said Workshop emphasized issuance of tenancy rights and cards in the names of both husband and wife, establishment of 'Women Receptionist Cell' in every Revenue Office in order to enhance the participative capacity of women, publishing of Land and Revenue Records and Laws and other necessary literature in vernacular language and application of the Government Land Assignments, Inheritance Laws, Land Distribution, and Land Development Schemes equally to women at par with men.

One-day Workshop on Land Laws in Telangana- Tribal Perspective

The second consultative workshop in this series was held at NALSAR on February 6, 2016 to understand the challenges in securing access to land rights from the perspectives of tribals. Like the first workshop, this workshop also witnessed diverse representation from various sections of the society. Concerns were over the lack of awareness amongst the tribal

and backward classes of the society regarding many beneficial laws and policies that the government has implemented for ensuring equal access to justice.. Due to the poor implementation of the said laws and policies, the tribal community is unable to secure their land rights. Some of the key suggestions gathered from the consultation include ensuring effective and unbiased operation of the Revenue and Agency Courts in tribal areas, handing over of the '*Jungseepa*' lands to the tribal community and registration of the tribal transactions happening through '*saada bainama*'.

SOCIAL RESPONSIBILITY

A) Community Driven Land Records Updation Model

NALSAR has created and implemented a unique low cost community-driven land records updation model in six villages of Warangal, Mahaboobabad and Jangaon Districts. Three local youth from each village were trained by NALSAR and undertook a 4-step process to collect the land data and update the land records. Through this process, all the land

problems were identified in the pilot villages. As a result of this exercise, **all the landowners in Puttalabhupathi village of Mahaboobabad district have received patta of their land after decades.** The resolution process is underway in other villages. This has been appreciated by various key officials in Government of India and Telangana State Government. **This model is being actively considered for adoption by governments as part of the prestigious Digital India Land Records Modernization Programme** being implemented by Government of India for updating and modernizing land records.

B) Land Rights Clinic and Legal Aid Assistance

About 700 people were provided free legal advice and 70 of them got their land problems resolved through the first of its kind Land Rights Clinic established by NALSAR with support from Legal Services Authority at the Warangal District Complex. This successful model can be replicated in the remaining area of the State if the funds are made available to NALSAR.

As part of the Legal Assistance Programme for Land of Society for Elimination of Rural Poverty (SERP), NALSAR provided 10 days para-legal certification course to 500 paralegals in 2006. These paralegals are working in the State of Telangana and A.P. and helping more than one million rural poor in getting secured land rights. This particular programme was appreciated by Government of India and its adoption to 17 other states has been recommended. More than ten lakh rural poor have got their land problems resolved with the support of paralegals trained by NALSAR.

Swarna Subba Rao, Surveyor General of India was the Chief Guest for the said training programme, Shri. Subba Rao shared his valuable experiences and in particular informed us that more than 60% of the civil litigation in the country is related to land disputes and these disputes can be further categorised into title disputes and boundary disputes. Sri. G. Maddulety Dy. Director (Retd.) Course Director, TSFA, Dulapally introduced the Workshop to the participants and opined that the officials need to be well-versed with the court procedures, manner of investigation and presentation of evidences and arguments in order to enhance conviction rates in forest matters. He also said that even though the Forest Department is a quasi-judicial authority in itself, nevertheless, it needs to approach the courts of law in the cases where penal sanctions are in the form of imprisonment. Even though the cases handled by the forest department as a quasi-judicial body are well managed and often resolved, the cases which go to the judicial forums need to be managed better and a crucial segment in this regard it would be the appropriate training of forest officials on investigation and presentation of conclusive evidence.

Recruitments / Job Placements

NALSAR graduates enjoyed an outstanding placement record. International and national law firms, corporates, PSUs and government agencies came for campus recruitments with highly attractive pay packages.

The students of the fourteenth batch were placed with national / international law firms, banks, and corporates. Out of the 79 students of the fourteenth batch, 57 students subscribed for the law school campus recruitment process. Out of the 57 students, five students were recruited by foreign law firms, 36 students were recruited by Indian law firms, three students have been recruited by Bharat Petroleum Corporation Limited, one of the leading PSU's in India, five students were recruited by domestic corporates and four students were recruited by practicing senior counsel / advocates in Hyderabad. Out of the remaining 22 students who have not opted for recruitment process, some students received LL.M admissions. Some received offers from leading foreign universities, others independently joined national law firms and some opted to go for litigation while others took UPSC, Judicial Service Exams etc.

Internship Placements

NALSAR believes that learning is not done in the classroom alone but also at place of work. To give practical insight, the University has systematic student-run winter and summer internship programmes.

The students of the B.A., LL.B. (Hons.) and LL.M. Degree Courses went for internships with government and non-governmental organisations, national and international legal corporates, senior lawyers and law firms. Some students worked as interns (Law Clerks) with the Hon'ble Judges of the Supreme Court and High Courts. Internship Placement is made keeping in view the preferences and aptitudes of the students in terms of what sort of employment they look for. Orientation training is given to the students to prepare them for placement with different organizations and the type of work which they are supposed to do as interns. After the internship is over, the students submit their reports to the University and these reports are taken into account for next internships. NALSAR students interned with Hon'ble Shri
